Subject: Re: Latest Version of Scoping letter?

I don't have access to it from home right now. I think you may have access, unless you can wait until next Tuesday when I am physically back in the office. If you want to try yourself, if you look in the Baker drive under ETPA, ERSMU, Environmental Review, Final Letters, then appropriate agency, you should be able to locate whatever letter you want to look at (assuming I have provided the right pathway). I actually think the current BLM NPR-A and COE Point Thomson may be more recent than NMFS Arctic.

Subject: Latest Version of Scoping letter?

Hi Jen,
I will be helping Mark with providing tribal related scoping comments on the Donlin process and I would like to see what our latest letter looks like (Tribal, EJ, TEK, other tribally relevant info). Do you have the most recent version in a word form?

I think the NMFS EIS would have been the most recent that would have been relevant, but I might be wrong on that.

Thanks! Tami
